

Education Division

The HCT's Teacher Education programs were developed specifically for the UAE's teaching needs. The English Language Teaching in Schools and Early Childhood Education programs have been developed in collaboration with the Faculty of Education at the University of Melbourne, Australia.

Prepared with up-to-date knowledge of educational theory, HCT education students practice the skills they learn at their college in actual classroom situations throughout the programs. This hands-on approach to learning gives students the teaching skills they need to excel in their future careers.

HCT teacher education graduates are now working in a wide range of educational settings across the UAE. With a willingness to embrace change, our education graduates are making strong contributions to continuous quality improvement in education, and are helping lead in the development of the nation.

Bachelor of Education in Early Childhood Education

The Bachelor of Education (Early Childhood Education) aims to produce graduates with the knowledge, skills, and attributes to provide care and education for young children to an international standard in a variety of Early Childhood Education settings. Education programs offer students one of the most rewarding careers and an opportunity to shape the future of their country. Prepared with up-to-date knowledge of

educational theory, HCT education students practice the skills they have learned at their college in actual classroom situations and other learning environments throughout the programs. This hands-on approach to learning gives students the teaching skills they need to excel in their future careers.
